DETAILED ACTION

Election/Restrictions

1. Originally restricted claims 1-12 have now been canceled by the applicant and new claims 13-32 have been entered. Claims 13-32 are still held to the restriction made on 6/23/06 and current claims 17-26 correspond to the original election (as noted by the applicant in the remarks filed 2/05/07 on page 7 lines 11-12) made by the applicant in the reply filed on 7/13/06. Therefore, claims 13-16 and 27-32 stand as withdrawn and an action on the merits of claims 17-26 follows.

Claim Objections

2. Claim 22 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 22 recites the same limitations as claim 20 from which it depends.

Claim Rejections - 35 USC § 112

3. Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Clm 24 reads "and a thermal shrinkability of at most." It is unclear to the examiner as to what the thermal shrinkability is at most of. Is it meant to be "at most 1%" as stated in clm 26 or is there some other value that the applicant wishes to claim?

Claim Rejections - 35 USC § 102

Art Unit: 3682

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 17-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Matsumoto et al, EP 1083347 A2 (published March 14, 2001).

Matsumoto discloses a belt for a ball chain comprising;

- a tape (21, Figure 7 and 8) of synthetic resin (C2/L52-53)
- extending along longitudinal edges and integral with the tape are stretched

monofilament fibrous member (23, C7/L38-55) of thermoplastic resin (Matsumoto discloses synthetic resin C7/L38-55) and wherein each of the stretched fibrous members are positioned inwardly of the corresponding edge (Figure 8 shows that stretched member 23 is inward of the edge of the belt)

- ball inseting holes (20) spaced at equal intervals along a straight line (spaced apart by projections 22) between the longitudinal edges
- projections (22) disposed around the holes

Response to Arguments

6. Applicant's arguments filed 2/05/07 have been fully considered but they are not persuasive.

7. The applicant argues that EP '347 does not disclose or suggest reinforcement of a synthetic resin fiber by stretching.

The examiner disagrees and directs the applicant to paragraph 0033 of the EP '347 disclosure. In this paragraph it states that the reinforcing material is pre-heated then passed through a mandrel of a cross head die and pulled out of a molding die. The steps of heating and pulling the reinforcing material does indeed stretch the member. Furthermore, these steps are very similar to the steps disclosed by the applicant in the remarks on page 7 lines 15-24 as being "frequently exercised in the field of resin processing" to produce a stretched filament.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
